

Innovator Program

Advantages

Evaluation Period

- Up to 30 days of field use at no charge
- Returns with no fees or complications
- Priority is given to evaluators with immediate field applications for the tool

Pricing and Discounts

- Lowest pricing (based on GSA schedule)
- Training included, online or at your location
- One year updates and support plan included
- Discounts on future purchases

Recognition and Access

- Invitations to speak with industry media and at select conferences about your experience
- Direct access to Wi-Fi technical expertise
- First access to software updates and new versions
- Interact with a select group of users as part of the Innovators Advisory Council
- Learn best practices for success in the field
- Set direction for development of new features

Requirements

- Maintain communication with support contacts during the evaluation period
- Complete the evaluation period on schedule
- Provide detailed input regarding valuable enhancements, future features and usage techniques for the Wi-Fi Investigator
- Share testimonials, case study information or simply be vocal about the tool within the industry community
- Agree to be listed as a partner on the Digital Certainty web site and materials

Be field-ready in 24 hours...

1. Agree to the program terms outlined here
2. Receive the Wi-Fi Investigator next-day
3. Participate in a 2 hour web-training

Then, get out into the field!
